## Curriculum Studies Handbook - The Next Moment (Studies in Curriculum Theory Series)

What comes after the reconceptualization of curriculum studies? What is the contribution of the next wave of curriculum scholars? Comprehensive and on the cutting edge, this *Handbook* speaks to these questions and extends the conversation on present and future directions in curriculum studies through the work of twenty-four newer scholars who explore, each in their own unique ways, the present moment in curriculum studies. To contextualize the work of this up-and-coming generation, each chapter is paired with a shorter response by a well-known scholar in the field, provoking an intra-/inter-generational exchange that illuminates both historical trajectories and upcoming moments. From theorizing at the crossroads of feminist thought and post-colonialism to new perspectives that include critical race, *carrere*, queer southern studies, Black feminist cultural analysis, post-structural policy studies, spiritual ecology, and East-West international philosophies, present and future directions in the U.S. American field are revealed.
