Cdma Mobile Radio Design (Artech House Telecommunications Library) John B. Groe, Lawrence E. Larson

A presentation of the complete design background of a CDMA handset, including hardware and software, digital, analogue and RF. It delivers an integral understanding of where this essential piece of communications technology fits into the CDMA "big picture" and the basic parts that make it work. Such an approach is aimed to provide engineers with a complete understanding of how handset hardware and software design affect system performance.
