Growing up in the conventional world with high sensitivities and extra sensory abilities can be a challenge. The authors are a mother – daughter duo and have mastered many of society's pitfalls that devour our beautiful children. In a compelling and empathic voice, the mood is set for walking the path that is right for each of us. By staring adversity in the face, and not kowtowing down to society's norms, Enlightened Indigo Child will show that you too can come through life's journey, triumphant and empowered. When we recognize ourselves as unique individuals and honor our innate gifts, we not only survive and thrive, we flourish. This book will give you insights you need to succeed.

"This book is long overdue, for the Indigo subject has always been something academic: a revelation of Human evolution. This one is different, since it has been written by an Indigo and her parent with a down-to-earth perspective of living the experience. So it's the "other side" of the coin, so to speak, what this whole Indigo evolution may be about. Indeed "INDIGOS ARE PEOPLE TOO!" Especially when you are reminded that they are now becoming adults!" -Lee Carroll - co author of The Indigo Children
