## **Essentials of general chemistry** Darrell D Ebbing

"Essentials of General Chemistry "is the ideal choice for instructors who want a shorter, less expensive core text that still supports a typical one- or two-semester general chemistry course. The text covers the same topical scope as Ebbing/Gammon, "General Chemistry, "and retains all of its hallmark qualities, including its focus on quantitative problem solving, conceptual understanding, and visualization skills. The new technology program reinforces the approach of the text and provides a complete solution for teaching and learning.

The Second Edition retains the hallmark pedagogical features of the text and builds upon its conceptual focus. In addition, figures and interactive animations in the updated art program help students connect molecular-level activity to macro-scale phenomena. The new technology program offers access to tutoring, assessment, and presentation tools through the comprehensive Eduspace Course Management tool--instructors can also choose selected resources for use separately via CD or the Web. Conceptual understanding is further emphasized throughout the Second Edition and its technology program with a separate section of new "Conceptual Problems" appearing in the printed and computerized Test Bank. "Answer Checks" follow selected Examples throughout the chapters in the text. They appear after the Solution and are designed to help students evaluate their answer to ensure that it is reasonable. Figures, drawings, and photos in the art program help students connect molecular-level activity to macro-scale phenomena. Animations in the student and instructor technology supplements also enhance students' ability to visualize molecular behavior. Based on instructor feedback, 60-70 percent of the material from Chapter 13, "Materials of Technology" and from Chapter 23, "The Transition Elements and Coordination Compounds" has been divided into two new chapters: Chapter 21, "Chemistry of the Metals" and Chapter 22, "Chemistry of the Nonmetals." A suite of integrated technology tools for students and instructors includes materials (except restricted testing items) that are web accessible, with passwords included in the media guides. In addition, to meet instructor needs, the "Media Integration Guide for Instructors "includes CDs containing all teaching resources. To ensure that students devote more time to their study of chemistry, key elements of the technology are assignable. In the classroom, instructors can gauge student progress through a Classroom Response System. Online homework within Eduspace--using either end-of-chapter questions or practice exercises based on in-text examples--can be tracked and graded. Even new animations--now with skill-building exercises--can be assigned. To support you and your students as you use our technology, we offer implementation services from our TeamUP support staff, as well as media integration guides for both students and instructors, along with textbook web sites. Eduspace (powered by Blackboard) includes problems that cover all key concepts in the text. Through the Eduspace program, instructors can create their own assignments and post them for students to complete at a designated time. The problems in Eduspace include algorithmic end-of-chapter questions, exercises based on the in-text examples, and Test Bank questions to ensure consistency of level and coverage. Questions can be graded and entered into the online gradebook automatically. Eduspace also includes additional course management and interactive communication tools. WebCT and Blackboard course cartridges include all the material on both the student and instructor web sites, as well as the HM Testing Test Bank.

### From reader reviews:

#### **Eric McDonald:**

This Essentials of general chemistry book is absolutely not ordinary book, you have after that it the world is in your hands. The benefit you have by reading this book is information inside this reserve incredible fresh, you will get info which is getting deeper you read a lot of information you will get. This particular Essentials of general chemistry without we know teach the one who studying it become critical in thinking and analyzing. Don't become worry Essentials of general chemistry can bring once you are and not make your bag space or bookshelves' turn out to be full because you can have it within your lovely laptop even phone. This Essentials of general chemistry having very good arrangement in word and also layout, so you will not sense uninterested in reading.

#### **Pablo McNamara:**

Is it you who having spare time then spend it whole day by simply watching television programs or just lying down on the bed? Do you need something new? This Essentials of general chemistry can be the response, oh how comes? The new book you know. You are consequently out of date, spending your extra time by reading in this fresh era is common not a geek activity. So what these guides have than the others?

#### **Issac Molina:**

Don't be worry in case you are afraid that this book will certainly filled the space in your house, you will get it in e-book way, more simple and reachable. This kind of Essentials of general chemistry can give you a lot of buddies because by you considering this one book you have matter that they don't and make a person more like an interesting person. That book can be one of a step for you to get success. This book offer you information that perhaps your friend doesn't learn, by knowing more than additional make you to be great persons. So , why hesitate? We should have Essentials of general chemistry.

#### **Donald Goodman:**

What is your hobby? Have you heard that question when you got learners? We believe that that problem was given by teacher to the students. Many kinds of hobby, All people has different hobby. And you also know that little person like reading or as looking at become their hobby. You have to know that reading is very important and also book as to be the point. Book is important thing to provide you knowledge, except your own personal teacher or lecturer. You see good news or update about something by book. Amount types of books that can you choose to use be your object. One of them is Essentials of general chemistry.
