In a merciless summer of biblical heat and destructive winds, Gabrielle Fox's main concern is a personal one: to rebuild her career as a psychologist after a shattering car accident. But when she is assigned Bethany Krall, one of the most dangerous teenagers in the country, she begins to fear she has made a terrible mistake. Raised on a diet of evangelistic hellfire, Bethany is violent, delusional, cruelly intuitive and insistent that she can foresee natural disasters - a claim which Gabrielle interprets as a symptom of doomsday delusion. But when catastrophes begin to occur on the very dates Bethany has predicted, and a brilliant, gentle physicist enters the equation, the apocalyptic puzzle intensifies and the stakes multiply. Is the self-proclaimed Nostradamus of the psych ward the ultimate manipulator, or could she be the harbinger of imminent global cataclysm on a scale never seen before? And what can love mean in `interesting times`? A haunting story of human passion and burning faith set against an adventure of tectonic proportions, "The Rapture" is an electrifying psychological thriller that explores the dark extremes of mankind's self-destruction in a world on the brink.
