## **Courses in General Linguistics** Ferdinand De Saussure

Ferdinand De Saussure died in 1913 with his masterpiece still unwritten: it was not until that 1916 that a text was reconstructed and published from his students' notes. Since then, De Saussure has been recognized as not only the founder of modern linguistics but a formative influence on the development of 20th-century thought. A classic of intellectual discovery, *Course In General Linguistics* defines the distinctions that have provided the basis for all subsequent linguistic studies. In his introduction specially written for this edition, Jonathan Culler writes: "Saussure helps us to understand the role played by distinctions which structure our world and the systems by which man becomes homo significans: a creature who gives things meanings."
