Janet L. Abrahm

A Physician's Guide to Pain and Symptom Management in Cancer Patients (Physician's Guide to Pain & Symptom Management in Cancer Patients (Abrahm)) Janet L. Abrahm

Janet L. Abrahm argues that all causes of suffering experienced by people with cancer, be they physical, psychological, social, or spiritual, should be treated at all stages: at diagnosis, during curative therapy, in the event that cancer recurs, and during the final months. In the second edition of this symptom-oriented guide, she provides primary care physicians, advanced practice nurses, internists and oncologists with detailed information and advice for alleviating the stress and pain of patients and family members alike.

The new edition includes the latest information on patient and family communication and counseling, on medical, surgical, and complementary and alternative treatments for symptoms caused by cancer and cancer treatments, and on caring for patients in the last days and their bereaved families. Updated case histories, medication tables, Practice Points, and bibliographies provide clinicians with the information they need to treat their cancer patients effectively and compassionately.
