Moonrise is the action-packed roller coaster ride that can only be the sequel to Moonless Night. Dawn escapes the clutches of Dantalion and her minions only to find herself at the mercy of the merciless Quinn. He stays by her side throughout this perilous journey, leaving her only when he hands her off to Laroke, a banished Werewolf that runs the underground of London, with a mysterious past connected to her and Kaiden. As Dawn learns more about Quinn and Laroke, two of the most powerful Atlanteans alive, she comes to understand exactly how much danger she is in and starts to wonder if she was better off locked in the mental institution.
