Production Frontiers

Rolf Fare, Shawna Grosskopf, C. A. Knox Lovell

Production Frontiers Rolf Fare, Shawna Grosskopf, C. A. Knox Lovell

This book presents a mathematical programming approach to the analysis of production frontiers and efficiency measurement. Using linear programming techniques, the authors construct a variety of production frontiers, and develop a model of efficient producer behavior and a taxonomy of possible types of departure from efficiency in various environments. This book provides a unique study in applied production analysis, and will be of interest to scholars and students of economics and operations research, and analysts in business and government.

From reader reviews:

Mary Summers:

People live in this new moment of lifestyle always make an effort to and must have the free time or they will get lots of stress from both daily life and work. So , whenever we ask do people have extra time, we will say absolutely of course. People is human not a robot. Then we inquire again, what kind of activity do you have when the spare time coming to you of course your answer will certainly unlimited right. Then do you try this one, reading textbooks. It can be your alternative within spending your spare time, the actual book you have read will be Production Frontiers.

Samuel Freeman:

Are you kind of active person, only have 10 as well as 15 minute in your morning to upgrading your mind proficiency or thinking skill even analytical thinking? Then you are receiving problem with the book than can satisfy your short period of time to read it because all this time you only find publication that need more time to be study. Production Frontiers can be your answer since it can be read by you actually who have those short free time problems.

Amanda Stone:

Is it you who having spare time subsequently spend it whole day through watching television programs or just lying on the bed? Do you need something totally new? This Production Frontiers can be the solution, oh how comes? A book you know. You are thus out of date, spending your extra time by reading in this fresh era is common not a nerd activity. So what these ebooks have than the others?

Christopher Rangel:

As a pupil exactly feel bored in order to reading. If their teacher requested them to go to the library or make summary for some reserve, they are complained. Just small students that has reading's soul or real their hobby. They just do what the educator want, like asked to the library. They go to presently there but nothing reading very seriously. Any students feel that examining is not important, boring and can't see colorful images on there. Yeah, it is to be complicated. Book is very important for you personally. As we know that on this period, many ways to get whatever we really wish for. Likewise word says, many ways to reach Chinese's country. Therefore , this Production Frontiers can make you truly feel more interested to read.
