He is the most revered prophet. Everyone loves the sublime message, but nobody has broken the code. It is much better than you thought. You will either; rebel and throw this book away, or you will embrace it as the most valuable book you have ever read. There is no middle ground here. It will polarize you, but that is what we want. We want to be convinced. We are open to the proof of everything and this coded message will give it.

There is only one reason God would do it this way, and that is to convince you. He wants to give you information, but he wants you to accept it without reserve. That is what proof is. You cannot deny it, because we do not know what will happen tomorrow, but God wrote a book about many books that will not exist for another six hundred years after the writing of the first. Now that is hard to do. You need special powers to do that.

Who is it for? How is it done? How do I know it is true? What is in it for me? And perhaps the most important question of all; what is it God wants to tell me in The 66 Books that I don't already know?
