Information Technology Law Ian J. Lloyd
Are you a user of Twitter or Facebook? Do you download your music or shop online? How often do you log on to the Internet using your mobile phone? Aspects of information technology permeate every aspect of our lives. From websites such as Facebook and Twitter, to online music and shopping stores, to CCTV cameras, it is rare that a person is not touched by some form of IT every day. But how often do we stop and think about the legal dimensions of these every day brushes with IT? Since the pioneering first publication of Internet Technology Law in 1993, both the book and the subject have become widely recognized and respected both academically and professionally. Focussing primarily on developments within the UK and EU, along with some comparative international aspects, this book provides a broad-ranging introduction and analysis of the frequently difficult relationship between the law and IT. Information Technology Law is essential reading for undergraduates and postgraduates on law courses covering the law relating to IT, including IT law, criminal law, intellectual property, and contract law. It will also be highly valuable to business and management students, practitioners, and professionals working in the area. In this sixth edition: - There is increased focus on the Internet and related activities - Further information on topical areas such as defamation, computer hacking, virus dissemination, and online gambling will be included - A new concluding section, 'Living in the Internet World' considers the legal implication of our immersion in virtual environments. It asks tantalising questions such as whether a virtual personality can be the victim of assault or theft Online Resource Centre: - For this new edition the Online Resource Centre hosts an exciting new author blog, a catalogue of web links to key readings, as well as regular updates.

From reader reviews:

Dorothy Roper:

As people who live in typically the modest era should be change about what going on or data even knowledge to make these individuals keep up with the era and that is always change and advance. Some of you maybe will update themselves by reading books. It is a good choice to suit your needs but the problems coming to anyone is you don't know what kind you should start with. This Information Technology Law is our recommendation to cause you to keep up with the world. Why, because book serves what you want and wish in this era.

Lisa Keener:

Playing with family in a park, coming to see the coastal world or hanging out with friends is thing that usually you could have done when you have spare time, and then why you don't try point that really opposite from that. Just one activity that make you not sense tired but still relaxing, trilling like on roller coaster you are ride on and with addition details. Even you love Information Technology Law, you can enjoy both. It is good combination right, you still want to miss it? What kind of hang-out type is it? Oh occur its mind hangout folks. What? Still don't understand it, oh come on its referred to as reading friends.

Maureen Smiley:

Reading a book to get new life style in this year; every people loves to study a book. When you study a book you can get a great deal of benefit. When you read textbooks, you can improve your knowledge, due to the fact book has a lot of information on it. The information that you will get depend on what sorts of book that you have read. If you would like get information about your examine, you can read education books, but if you act like you want to entertain yourself read a fiction books, such us novel, comics, in addition to soon. The Information Technology Law will give you a new experience in reading a book.

Stephen Porter:

What is your hobby? Have you heard in which question when you got pupils? We believe that that query was given by teacher with their students. Many kinds of hobby, Every individual has different hobby. So you know that little person similar to reading or as looking at become their hobby. You must know that reading is very important in addition to book as to be the point. Book is important thing to increase you knowledge, except your own teacher or lecturer. You find good news or update concerning something by book. Different categories of books that can you choose to adopt be your object. One of them are these claims Information Technology Law.
