Competing for Your Future Robin Borough

Job-hunting is confusing. This book dispels the confusion. It includes strategies developed over the course of my 20 years in the career search field. As a recruiter and coach, I have worked closely with thousands of up-and-coming technologists, business professionals, and senior IT executives. I have seen these strategies in action. (Trust me, they work.) They are the most appropriate, productive, and effective tools for today's professionals. With this book, I want to update you on newer strategies and help you make sense of the job landscape. I also want to encourage you to develop an effective, far-reaching career plan - one designed to help you take charge of your situations.
