## **Reading, Writing, and Proving: A Closer Look at Mathematics (Undergraduate Texts in Mathematics)** Ulrich Daepf, Pamela Gorkin

This book, based on Pólya's method of problem solving, aids students in their transition to higher-level mathematics. It begins by providing a great deal of guidance on how to approach definitions, examples, and theorems in mathematics and ends by providing projects for independent study. Students will follow Pólya's four step process: learn to understand the problem; devise a plan to solve the problem; carry out that plan; and look back and check what the results told them.
