JET-Asian 1550 15" Metal Lathe Operator's & Parts Manual

Misc.

JET-Asian 1550 15" Metal Lathe Operator's & Parts Manual Misc.

Number of Pages: 48

This is a reproduction, not a photocopy, of a JET/Asian 1550 15" Metal Lathe Operator's and Parts Manual. This manual contains information on setup, lubrication, maintenance, adjustments, and controls as well as a complete parts list and diagrams.

Overview I have collected this information for many years and have found the information they contain to be priceless in using and setting up the machines properly. I believe this manual will be a valuable resource of knowledge that will provide a lot of helpful information that is often hard to find. My manuals are not photocopies. I maintain a high standard of quality in my reproductions. Most of the manuals I reproduce look better than their originals. I have professionally digitally edited every page, and removed stains, wrinkles and handwriting. All of the manuals are printed on thick white paper to withstand shop wear and tear; they are then comb bound with heavy cover pages so they lie flat on the workbench.
