**Microwave Experiment: A Story of Government Testing on a United States Customs Officer** Mary E. Gregory

Asserting that the U.S. government is carrying out microwave experimentation on its citizens, this discussion of various governmental chemical and biological testing sets forth unnerving accusations that are not for the faint of heart. This book is for those who wonder if national and global tragedies are not mere accidents, but rather planned events that are executed by the U.S. military-industrial-oil-bank complex for nefarious purposes. A variety of taboo topics not discussed in the mainstream media are addressed. Allegations such as electro-bolts to the brain, driverless cars swerving through traffic, and preparation for urban warfare are discussed in this book full of hard-hitting allegations.
